Ranjelison Vonjitahina Charles

Software Engineer with 5+ years of experience

Anosy, Antananarivo | +261 34 11 517 76 | vonjitahinaranjelison@gmail.com | LinkedIn

RESUME

Software Engineer and Python Developer with over 5 years of experience in web application development using Python/Django and Angular. Expertise in designing REST APIs, database modeling, and developing scalable business solutions. Experience in application architecture, system migration, process automation, and collaborating with product teams.

PROFESSIONAL EXPERIENCE

Software Engineer, Maurice Mautourco - BICI | hybrid | 3+ years

Mautourco – A company specializing in tourism services and transportation solutions in Mauritius.

Achievements:

- Analysis of business requirements and design of tailored technical solutions.
- Development of web applications using Django, Angular, and PostgreSQL.
- Design of REST APIs for a driver mobile app and integration with the back office.
- Automation of business processes and optimization of transportation resources.
- Migration, deployment, and maintenance of mission-critical applications.
- Applied machine learning approaches to improve the forecasting and optimization of transportation resources.

Software Engineer, BICI | On-site | 1 year

BICI - An IT consulting and services firm specializing in IT solutions.

Achievements:

- Developed and maintained backend applications that met clients' functional requirements.
- Designed and exposed REST APIs for integration with web and mobile applications.
- Participated in technical requirements analysis, solution design, and the continuous improvement of applications.
- Collaborated with frontend teams and stakeholders to ensure quality and the delivery of features.

Full-Stack Developer, Numerika Center | On-site | 1 year

Numerika Center is a Madagascan training center in Antananarivo that specializes in data analysis.

Achievements:

- Designed and implemented an interactive platform dedicated to business management and professional training.
- Worked closely with stakeholders to tailor the platform's features to the organization's needs.

SKILLS

- **Expertise:**
  - Analysis of business requirements and design of appropriate technical solutions.
  - Problem-solving, code improvement, and implementation of best practices.
  - Independence, attention to detail, and effective communication in a hybrid environment.
- **Languages & Frameworks** :
  - Languages: Python, TypeScript, JavaScript, PHP
  - Frameworks: Django, Django REST Framework, FastAPI, Node.js, Laravel, Angular
- **Database** : PostgreSQL, MySQL, MongoDB, Data Modeling, Query Optimization, and Performance Management

- **Cloud Infrastructure :**
  - AWS: EC2, RDS, S3
  - Docker and containerization
  - Git, CI/CD and Version Control
- **IA / Data :**
  - Machine Learning : scikit-learn, TensorFlow, PyTorch , Apache Airflow
  - Data Analysis : Pandas, NumPy, Matplotlib
  - Statistical Analysis, Optimization, LLM, NLP
  - Data Preparation, Cleaning, and Processing
- **Methodologies:**
  - Agile Methods (Scrum), Collaboration with Product and Technical Teams

EDUCATION

Master of science BIHAR - BIG data & AI | 2024
ESTIA, Institute of Technology France

- Big Data Architecture, Distributed Systems
- AI Application Design, AI Modeling, and Deployment
- Natural Language Processing and Computer Vision
- Agile Project Management, Technical Communication, Cybersecurity

Bachelor's Degree in Web Computing and Design | 2021
IT University, Madagascar

- Design and development of web and mobile applications using n-tier architecture
- Proficiency in multiple programming languages and associated frameworks
- Design and management of relational and NoSQL databases

LANGUAGES

- **Malagasy:** Native language
- **French:** Advanced (Professional) Level
- **English:** Intermediate (Professional) Level
